## BENEFITS TO BE DERIVED BY DEEP WATER AT MOSQUITO INLET EXPLAINED AT MASS MEETING

**BUSINESS MEN OF EAST AND  
CENTRAL PORTIONS OF STATE  
DISCUSS MATTER LAST NIGHT**

SENTIMENT EXPRESSED IS THAT  
IF PEOPLE HERE WOULD WAKE  
UP GOVERNMENT AID COULD  
BE SECURED.

The mass meeting held in the high school auditorium last evening for the furthering of the project of improving Mosquito Inlet, was a mass meeting in name only, so far as Daytona representation was concerned and yet it was as well attended as the usual public meetings in this city, where it is most difficult to get the citizens to come out to a meeting of this character. The usual faithful few were present and accepted with what grace they could the well merited rebukes of the delegates from other places.

Following several excellent selections by Saracina's Royal Italian band, President L. M. Waite of the Daytona board of trade, under whose auspices the meeting was held, called the meeting to order and H. I. Hamilton, secretary of the New Smyrna board of trade, was selected as secretary of the body.

President Waite then introduced the principal speakers of the evening, Dr. J. A. Van Valzah of Daytona Beach, Judge C. E. Barrett of Indianapolis and New Smyrna, T. K. Bates of Sanford, and H. I. Hamilton of New Smyrna. Several other gentlemen from New Smyrna also made short addresses, as did also C. F. Burgman of Seabreeze, and Col. C. M. Bingham of this city. Dr. Van Valzah spoke at some length on the benefits to be derived by the whole middle section of Florida from the improvement of Mosquito Inlet and asserted his belief that government aid could be secured by going after it, particularly if the county should be bonded in the sum of \$500,000 to offset the government aid. He cited Richmond, Cal., as an example of what could be done along this line and of the wonderful results in property values that arose from it and would as surely follow here. He dwelt particularly upon the vast shipments of phosphate that would seek a natural outlet through Mosquito Inlet and gave facts and figures to substantiate his theories. He called attention to the fact that twice in the past the government had made surveys of the Inlet, but as the people of this section did not at those times take the matter up it went no further.

Dr. Van Valzah was followed by Judge Barrett, an able speaker and a man well versed in political affairs. The judge has but recently returned from California with the purpose of casting his lot at New

OF LIFE IS HEAVY.

MEXICO CITY, Jan. 21—The volcano Mount Colima in the state of Jalisco is again in violent eruption. Volumes of smoke, cinders and lava suddenly belched forth yesterday, killing hundreds of cattle and horses grazing at the foot of the mountain. It is feared the loss of life will be heavy. Relief trains were halted last night by masses of lava and boulders on the track. Ashes are now falling over Guadalajara, 100 miles distant, and the poisonous fumes have permeated the air for many miles. The rumbling of the eruption is terrific and the residents are fleeing from the neighborhood.

WASHINGTON, Jan. 21—Secretary of State Knox today decided to send at least one warship to Vera Cruz to protect American lives and property.

Advices received at the state department today state that the terror stricken people are pouring into Vera Cruz from the surrounding country, seeking safety.

## AVIATOR TO REACH HERE TOMORROW

WATCH DAILY NEWS BULLETIN  
FOR THE TIME OF HIS START

START TO BE FLASHED HERE  
AND PEOPLE MAY WATCH FOR  
FIRST APPEARANCE OF THE  
BIRDMAN.

Unless he meets with another accident or atmospheric conditions are unfavorable, Aviator George Gray will start his flight from St. Augustine for Daytona tomorrow morning and will probably reach this city some time around the noon hour.

There is nothing definite about the time the aviator will begin his flight from the Ancient City and it is hard to estimate the time it will take him to cover the distance from St. Augustine to Daytona, about 65 or 70 miles. With favorable atmospheric conditions he should cover the distance in less than two hours.

The Daily News has made arrangements to be notified the exact time the aviator leaves the Ancient City and the time will be posted on a bulletin board in front of the Daily News office, so the people may watch for the first sight of the birdman when he appears from the north. He will probably land on the beach. The Daily News will gladly give the time of the start to all hotels and others who desire it. Telephone No. 18.

The aviator is making a cross country flight from Jacksonville to Palm Beach, taking the course through the air and along the coast in preference to having his machine shipped by express. The first leg of the trip from Jacksonville to St. Augustine was made without mishap a week ago last Saturday, but the aviator has been unable to continue his flight to Daytona because of unfavorable weather conditions and an accident to his biplane the one time he did make an attempt to start. The machine has now been repaired and the aviator is to try it out in an exhibition flight at St. Augustine late this afternoon. If everything works right the start for Daytona will be made tomorrow morning.

## BUSINESS MEN AT SESSIONS OF CONGRESS

### PLAN PROPOSED BY MEMBERS OF CHAMBER OF COMMERCE

ORGANIZATION OF BUSINESS MEN FROM ALL PARTS OF THE COUNTRY NOW IN SESSION AT THE CAPITAL.

WASHINGTON, Jan. 21.—The United States Chamber of Commerce, a representative organization of prominent business men throughout the United States, began the regular session of its first annual convention here today.

An address of welcome was delivered to the delegates by Secretary of Commerce and Labor Nagel in which he outlined the purpose of the organization as an endeavor to devise ways and means to place before the legislators at Washington opinions of commercial men who are members of the chamber. It is the object of the United States Chamber of Commerce, said Secretary Nagel, to act in an advisory capacity to the national law making body and to advise and assist congress in all matters pertaining to trade. An attempt will be made to arrange for the presence of a committee of business men appointed by the chamber at all sessions of congress.

President Harry A. Wheeler of the United States Chamber of Commerce, called the delegates to order. In his opening address he characterized the purpose of the organization as the most notable step toward the coordination of the manifold economic and commercial interests of the nation yet taken. The meetings of the convention took place in the auditorium of the New Willard hotel.

## The KITCHEN CUPBOARD

### ECONOMICAL FRUIT CAKES.

If you wish to reduce the cost of the Christmas feast without modifying its completeness substitute for the ordinarily rich and costly fruit cake one simpler in composition. The recipes given here are designed for the purpose of providing cakes that are delicious, yet comparatively inexpensive.

#### A Handsome Cake.

**White Fruit Cake.**—Stir together one cupful of sugar and half a cupful of butter. Beat until very light the whites of four eggs and mix with the sugar and butter; then add one cupful of stoned and chopped raisins and half a cupful of citron cut in small shavings and rolled in flour. Stir two teaspoonfuls of baking powder through two cupfuls of flour. After adding to the mixture one cupful of sweet milk stir in the flour and bake in moderate oven.

**Fruit Cake Without Eggs.**—Take two cupfuls of sugar, two cupfuls of buttermilk, one pound of seedless raisins chopped fine, four cupfuls of flour, one-half cupful of butter, one tablespoonful of soda dissolved in a little hot water and spices to taste. A cupful of rich preserves of pears or strawberry jam adds to the fruit taste liked by many. Bake in a slow oven.

#### Simple Recipes.

**Coffee Fruit Cake.**—Take a cupful each of molasses, brown sugar, butter, raisins, currants and cold coffee, together with one egg, one teaspoonful each of soda, cloves, cinnamon and allspice and four cupfuls of flour. Mix and bake one hour in a slow oven.

**Fragrant Fruit Cake.**—Take one-third cupful of butter, one cupful of brown sugar, two cupfuls of whole wheat flour, one cupful of seeded raisins, one cupful sour milk, one teaspoonful each of powdered cinnamon, cloves, allspice and one-half teaspoonful of soda. Cream the butter and add sugar, then beat until creamy. Add the spices to the flour. Take one-half the flour and the raisins washed and dried. Mix well. Then add milk in which the soda has been beaten, and the remaining flour. Bake in a moderate oven until a broom straw put in the cake will come out dry.

If sweet milk is used take a little less and substitute one tablespoonful of baking powder for the soda, sifted in the flour.

*Anna Thompson.*

 The effect is quite satisfactory. The

 If a man constantly aspires, is he

**Britain's Colonial Possessions.**  
 The colonial possessions of Great  
 Britain are divided into three classes  
 —crown colonies, representative insti-  
 tutions, and responsible governments.  
 In crown colonies the crown has the  
 entire control of legislation, the ad-  
 ministration being carried on by public  
 officers under the control of the  
 home government. Basutoland, Bech-  
 uanaland, The Fiji Islands, North  
 Borneo and most of the African and  
 Asiatic possessions are crown colonies.

 Pip Maudlin of Skeedee. "Why, when  
 he's at work and the fire bell rings  
 he says he's too busy to go, and just  
 lets 'er ring. Something mighty queer  
 about such actions; nobody is ever  
 too busy to go to a fire!"

**Limit to Foolishness.**

**INAUGURATED**  
**BY MACVEAGH**  
**GOVERNMENT CHECKS MAY BE**  
**CASHED BY NATIONAL BANKS**

THIS PLAN WILL DISTRIBUTE  
 MORE OF GOVERNMENT MONEY  
 IN DIFFERENT PARTS OF THE  
 COUNTRY.

WASHINGTON, Jan. 21.—Although  
 congress has been wrestling with the  
 question of a money trust all winter  
 and Attorney General Wickersham  
 gave up the investigation because he  
 could not determine where to begin  
 or where to end, Secretary of the  
 Treasury MacVeagh has been able to  
 accomplish something in this line  
 that puts previous efforts in the shade.  
 He has found a way, which, accord-  
 ing to experts, will to some extent  
 prevent the concentration of money  
 in New York.

Incidentally it will save large sums  
 of money to nearly 30,000,000 people.  
 Wall Street, however, does not seem  
 to be very much exercised about the  
 matter, as brokers believe and know  
 that the balance of money will always  
 remain in the populous centers of  
 trade.

Orders have been issued by Mr.  
 MacVeagh providing for the pay-  
 ment of government checks through  
 national banks instead of through sub-  
 treasuries as formerly. This an-  
 nouncement has not caused a stir,  
 but it will mean that over a billion  
 dollars annually will be drawn away  
 from New York City, which was form-  
 erly concentrated there by exchange  
 through subtreasury checks.

This money will be diffused in ev-  
 ery section of the United States in  
 the shape of checks for the payment  
 of pensions, irrigation works and in  
 fact all government work of all de-  
 scription. It will mean that the gov-  
 ernment deposits in the national  
 bank at Roosevelt, Arizona, will be  
 increased several hundred thousand  
 dollars in order that the paymaster  
 can pay off the laborers and other  
 employees on the irrigation project  
 there. At Pearl Harbor, Hawaii,  
 several million dollars will have to  
 be deposited in the national banks in  
 that vicinity to meet contract pay-  
 ments for the fortifications being  
 erected there by the army.

At Bath, Me., Philadelphia, Seattle,  
 San Francisco, New York, Boston,  
 Newport News, Virginia, and other  
 shipbuilding centers, over \$60,000,000  
 during the next year will be sent to  
 the national banks in those cities.

The army will split its appropriation  
 of approximately \$175,000,000  
 among various army posts through-  
 out the country.

Formerly all government pay checks  
 were payable at the sub-treasury in  
 New York. Paymasters even in San-  
 Francisco preferred the New York ex-  
 change because, generally the indi-  
 vidual to whom the checks were  
 drawn, could cash the check payable  
 on New York without a discount. In-  
 cidents occurred, however, where the  
 government vouchers were payable at  
 other subtreasuries and generally the  
 individual had to discount the check.  
 It has been estimated that at least  
 \$2,000,000 was earned by banks in  
 exchanging the checks.

Whereas, formerly this money  
 found its way to New York and there  
 held by what congress has unofficially  
 termed a money trust, it will now be  
 kept in the jurisdictions into which  
 it is first sent. National banks will  
 be the medium of exchange and it is  
 thought that it will not be neces-  
 sary in the future for farmers and  
 ranch owners to pay excessive rates  
 of interest in the spring and fall of  
 the year when it becomes necessary  
 to move the crops.

In speaking of the matter, Carmel  
 Thompson, recently appointed treas-  
 urer of the nited States, formerly  
 secretary to President Taft, said  
 that it was one of the most business-

Like moves that has yet been made  
 by the treasury department in its  
 administration of the financial affairs  
 of the government. Incidentally he  
 says, it will increase the work of  
 the treasurer of the United States a  
 thousand fold. The treasurer's of-  
 fice up to the present time, it might  
 be remarked, has been something of  
 a "cinch," the principal reason for  
 the existence of the office being a  
 desire to have a treasurer of the  
 United States, just as all well regulat-  
 ed financial concerns have. Then too  
 there is a natural desire to have the  
 currency complete in having the  
 treasurer's name emblazoned thereon.

### Origin of Paper.

At various times the scholars of different countries have tried definitely to determine the real discoverer of paper in the eleventh century. It is to paper that we owe the renaissance of letters. From time immemorial something answering modern paper was used in China, where it was manufactured from silk. About the middle of the seventh century of our era there seems to have been established in Arabia a manufactory of paper, and fifty years later the way was discovered to make it from cotton instead of from silk, silk being a rare commodity on the side of China at that time and cotton relatively plentiful. In the reign of Henry II. of France a Greek scholar was sent to Paris to arrange systematically a catalogue of antique manuscripts in the royal library, and a notation in his hand speaks of what was then known as "paper" as originating in Damascus. The later invention of making paper from flax, linen or hemp has been attributed equally to Italy and Germany, but there is evidence that it existed prior to the fourteenth century.—Harper's.

### Escort For the Holy Carpet.

As is well known to Mohammedans, but to few Europeans, the Holy Carpet always travels with an escort to and from the holy cities of Medina and Mecca. This escort consists of 300 to 350 men of one of the Egyptian infantry regiments, with two small field pieces and two quick firing guns, and about forty mounted men, together with their horses. The object of such a strong escort is to protect the sacred object from falling into the hands of the Bedouin tribes, through whose countries it must pass at various stages of its journey and who are also on the lookout for it, as the carpet is worth a fine ransom. Desperate attacks are not infrequently made upon the Holy Carpet by the Bedouins of the desert; hence the strength of the escort.—Egyptian Gazette.

### Lions and Tigers.

Three feet or a little over is the real height of good sized lions and tigers. And when sportsmen realize what an extra six inches or nine inches added to the stature involves in increased length and general bulk to balance the known proportions of the animals I am equally sure they will admit that no lion ever scaled anything like four feet at the shoulder and that the height measurements of dead specimens give quite a false idea of the actual heights of the animals in life. The following are the heights at the shoulders of some of our large felines: Large lioness, 2 feet 11 inches; Manchuria tigress, 2 feet 9 inches; Nepal tigress, 2 feet 8 inches; Sumatran tiger, 2 feet 7 inches; large male jaguar, 2 feet 3 inches; male cheetah, 2 feet 2 inches.—London Field.

### Youth.

Youth is the springtime of life. It is the time to acquire information, so that we may show it off in after years and paralyze people with what we know. The wise youth will say low till he gets a whole lot of knowledge, and then in later days turn it loose in an abrupt manner. He will guard against telling what he knows, a little at a time. That is unwise. I once knew a youth who wore himself out telling people all he knew from day to day, so that when he became a bald-headed man he was utterly exhausted and didn't have anything left to tell any one. Some of the things that we know should be saved for our own use. The man who sheds all his knowledge and doesn't leave enough to keep house with fools himself.—Bill Nye.

### Turkish Justice.

The poor baker for some reason appears to have been singled out for some extraordinary punishments. It is only within late years that there has been rescinded in Turkey a law by which the baker guilty of short weight tricks was punished by having his ear nailed to the doorpost. Turkish officers of the law are notoriously averse to giving themselves more trouble than is absolutely necessary. If the recalcitrant baker did not happen to be at home when they arrived to administer punishment they didn't bother to call again, but just seized his son or his journeyman or his father-in-law or whoever was handy and nailed his ear to the doorpost. So long as somebody was punished it did not matter.

### The Samian Letter.

The letter Y is called the Samian letter. It is so called because its Greek original was deferred to by Pythagoras, the philosopher of Samos, to illustrate how deviation from the straight path of virtue becomes constantly wider as the lines are extended. The poet Pope refers to this idea in the lines:

When reason doubtful, like the Samian letter,  
Points him two ways, the narrower the better.

## OHIO SOCIETY WILL MEET

FEBRUARY 13TH THIS YEAR

VICE PRESIDENT OF ORGANIZATION GETS INTERESTING LETTER FROM THREE MEMBERS STILL UP NORTH.

The annual meeting of the Ohio society of Daytona will be held this year, February 13, and already preparations are being made to have it a rousing reunion of the winter visitors to this section from the state of Ohio.

In this connection the following letter, received from Dr. S. P. Leland, is of interest to the members of the society and other people from that state:

Delaware, O., Jan. 16, 1913.

Dr. S. P. Leland, vice president, officers and members of the Ohio society:

Dear Friends: Keep the fires of fellowship continually burning on the altar of fraternal feeling and good will, that the Ohio society of Daytona may become the largest and most influential organization in the state of Florida.

The ubiquitous Ohioan is found everywhere. Go to the islands of the seas and he is there; travel in the Orient and the Holy Land, you will find him there; visit the far north and south, you find him again. I will stop here before I get into trouble, yet I dare say he will be found above and perhaps below.

We found the good people all over Florida, and particularly in Daytona, where the balmy atmosphere and sunshine greet you and the health giving environments restore the worn out tissues to a new life and strength again. Hurrah for good old Daytona!

We grieve over not being with you this season, but hope to be with you next year and push the membership to 1,000.

The alacrity with which the Ohio people signed up and gathered to organize the society last year clearly indicates that all are interested and determined to make the organization a success and a permanent one.

The Daytona newspapers were strong factors in doing the work, and through their advertisement scattered the news throughout the United States.

This wide spread public recognition should bring about an influx of people to your city that will be of lasting benefit.

Your able officers who are present this year bespeak a great and successful meeting the 13th of February, 1913. While we are wrapped in our winter garments, breathing the freezing atmosphere and eating icicles and snowballs like suffering California we see you promenading Beach street in your summer garb, eating all kinds of tropical fruits, and inhaling the perfume of the orange blossoms. With the Psalmist we can say, "Truly your lot has been cast in pleasant places."

Providence permitting we shall be with you in 1914, to enjoy the annual meeting, and especially the fish and oyster bake at Ponce Park, or on a ocean beach.

We continually receive inquiries from last year's advertisements about Daytona as a place for winter homes. All receive the same answer, "Greatest on earth. Go there and try it."

Notify all and get together early and extend the glad hand, that all may know that they have cast their lot in a goodly place, and among friends. Your enterprising papers and reporters will gladly scatter the news abroad, thus causing many more to come next year to one of the most healthful and enjoyable places in the southland, if not THE BEST. May the February meeting be a memorable one, and your feasting under the leadership of George H. Ludwig, A. E. Mason and H. S. Miller be long remembered by all, and all will go away singing praises of thanksgiving.

Like the Irishman who was badly injured and was taken to the hospital, when asked which ward he would like, pay one or a free one, he replied, "It makes no difference, so it is strongly democratic and I can be among my friends."

Fraternalty yours,

S. W. FOWLER,

MRS. S. W. FOWLER,

C. F. VAIL.

### Crude Art in Europe.

Americans sometimes think that it is only our country that is troubled with crude art in the form of graceless statues of public men. But occasionally, at least, Europeans are moved to protest against similar afflictions. The statues of Bjornson and Ibsen in Christiania have evoked strong protest, and a movement has been started for their removal. Bjornson's son declares that the statues "look like cheesemongers who have climbed up on a pile of their wares."

**MARGUERITE W. SHIELDS IS WEDDED TO WILLIAM CHRISTIE**  
CELEBRATION PERFORMED AT WINTER HOME OF BRIDE'S PARENTS ON VOLUSIA AVENUE THIS FORENOON.

A home wedding of more than usual interest was celebrated this morning when Miss Marguerite W. Shields and William T. Christie were united in marriage at 10 o'clock at the winter home of the bride's parents, Mr. and Mrs. James W. Shields, on Volusia avenue.

The ceremony was performed by Rev. D. H. Rutter, pastor of the First M. E. church of this city, the full ring service being used. The wedding march was played by H. A. Tucker on the violin, with piano accompaniment by Miss Ella Williams.

The ceremony was witnessed by about 30 relatives and close friends of the contracting couple. The bride was married in a traveling suit and carried a bouquet of orchids and lilies of the valley. The parlors of the residence in which the marriage was solemnized were tastefully decorated with palms, roses and other flowers, and following the ceremony delicious refreshments were served to the assembled company.

After the enjoyment of refreshments the couple were captured by some of their young friends and compelled by them to take an automobile ride about the city. As they were leaving the house they were showered with rose leaves and rice and this was repeated later as they were entering the train for their wedding journey north, as they left Daytona by the train due here from the south at 11:25 a. m.

Mr. and Mrs. Christie will go first to New York and thence to Pittsburgh, where they will be tendered a series of receptions by the bride's sisters, Mrs. I. M. Fickelsen and Mrs. J. M. Taylor and others of that city. After a week or more spent in Pittsburgh they will go on to St. Louis, where they will make their home.

Both the bride and groom are well known and have a host of friends in Daytona and elsewhere to wish them all possible happiness and prosperity in their married life.

#### Rather Neat Rejoinder.

A Frenchman, dining at the duke of Richmond's, bored the company by boasting that his country was first in everything, and supreme in fashions. Ruffles were then in vogue, and monsieur claimed that France deserved the credit for introducing them. "That is true," said George Selwyn, "but England improved them greatly by adding a shirt to them."

#### Useful Instrument in Farm House.

Every farm house should have a harness needle in it. One of the many uses to which the needle can be put is to sew rips in shoes that may save an extra trip to the cobbler's.—Home Department, National Magazine.

## ARRESTED FOR SHOOTING ON RESERVATION

**TWO JACKSONVILLE BROTHERS SAID TO HAVE VIOLATED LAW**

**BOUND OVER TO COUNTY CRIMINAL COURT AND FEDERAL DISTRICT ATTORNEY IS ALSO AFTER THEM.**

For an alleged open violation of the game reservation laws in shooting at birds in the vicinity of the Duss place, near the lower end of the Mosquito Inlet bird reservation, Sunday, R. G. and L. H. Williams, two brothers of Jacksonville, were placed under arrest and will have to answer to the charge of violation of the laws.

The shooting is alleged to have been done in open violation of the law and in close proximity to one of the reservation signs. It was noted by several persons, who notified B. J. Pacetti, inspector of reservations, at whose instigation the men were placed under arrest by Capt. Sheldon.

The two brothers were taken before a justice of the peace at New Smyrna, given a hearing and bound over to the criminal court under bonds of \$200. The men are said to have furnished the bonds and proceeded on down the river in their launch.

This means the alleged violators will have to face the county criminal court on the charge of shooting, and it is understood warrants for their arrest have also been sworn out by the federal district attorney in Jacksonville, which will bring them before United States Commissioner E. O. Locke in Jacksonville.

This is said to be the second case of arrest for violation of the reservation laws since the Mosquito Inlet reservation was established. The other one was the Dupont brothers of St. Augustine a few years ago.

**Don't Forget to Exercise.**  
No man of affairs, however important or overdriven, can ever be too busy to take time for exercise, unless he wishes to apply for his long vacation a decade or two earlier than is necessary.

The place where the mummy of the Egyptians should be carried round at regular intervals, with a reminder that he has been dead for 10,000 years, is not at feasts, but in our business offices, workshops, counting houses and studios. There is where men are really killing themselves, instead of in their sports, their luxuries, or even in their vices.

Commercially slave-driving your body and brain may sometimes be a necessity, but the unbiased biologist of the twentieth century is beginning to suspect that the praises of industry, like those of a sacrifice, are sung most loudly and insistently by those in church or state who hope to profit by it—in others!—Woods Hutchinson, in Exercise and Health.

**Outlook for Peace.**  
"Scientists tell us that the sea is gradually cutting the continents away."  
"That being the case, I suppose the time will come when there won't be any land left above the water."  
"It would seem so."  
"Peace may some day be established after all."

**Overlooked.**  
"Very few mosquitoes taste anything but the juice of tender plants," remarked the naturalist. "Is that so?" exclaimed Farmer Cornstossel. "It kind o' looks as if human beings hadn't been properly advertised as mosquito food."

DAYTONA

The Most Beautiful Winter  
Resort in the World

Watch It Grow

Watch it through the columns of The Daytona Gazette-News. It is published every Saturday the year 'round. More than a million dollars in improvements in Daytona and vicinity have been made during the past year and many large undertakings are laid out for the coming season, and you will want, of course, to keep abreast with the progress of the community.

It gives you more local news than all local papers of Volusia combined. Many of the little personals about persons with whom you are acquainted will interest you.

#### A Shell's Strange Exploit.

The late Major Merrill of Lawrence was well known in military circles all over the country. When the G. A. R. encampment was held in Kansas City some years ago the soldiers of the east and those of the west met with each other in telling stories of the war. After listening to some pretty tough yarns Major Merrill related the following and carried off the honors:

"You know, boys, that I served throughout the war in a Massachusetts Light battery. During the fighting at Malvern Hill our ammunition was running low, and I was sent to the rear for powder.

"I had an open express wagon and four mules. I got about a ton and a half of loose powder into the wagon and started for the front. About half-way back to my battery a shell landed right in the middle of the powder, and would you believe it, it burned up a bomb and a half before I could stamp out the fire!"—Boston Herald.

#### Monster Ant Hills.

West African ant hills are veritable giants, frequently attaining forty feet high. These ant hills are shaped something like a sugar loaf and are divided inside into hundreds of tiny rooms. They have, needless to say, myriads of inhabitants, and these are all busy making roads, gathering food and watching over the eggs and youngsters. The natives are afraid to touch these hills, except from a distance, with firearms. The ants often make their strongholds around trees, and they are built very solidly, with sides sometimes twenty inches thick. The inside is hollow, and at the top there is a sort of attic. The "royal cell," where the queen ant lives, is always found on the ground floor. This good lady is a prisoner, but is carefully fed by her busy subjects. The eggs she lays being immediately carried away and deposited in "rooms" set apart for the purpose.—Wide World.

#### Your Own Body.

Think deliberately of the house you live in—your body. Make up your mind not to abuse it. Eat nothing that will hurt it; wear nothing that distorts or pains it. Do not overeat it with virtuous or drink or work. Give yourself regular and abundant sleep. Keep your body warmly clad. At the first signal of danger from any of the thousand enemies that surround you defend yourself. Do not take cold, guard yourself against it. If you feel the first symptoms, give yourself heroic treatment. Get into a fine glow of heat by exercise. This is the only body you will ever have in this world. A large share of pleasure and pain of life will come through the use you make of it. Study deeply and diligently the structure of it, the laws that should govern it, the pains and penalties that will surely follow a violation of every law of life or health.

#### A Merchant, Not a Beggar.

An American lady in Rome bought some matches from a little match vendor. They were wax matches in little decorated boxes. She handed the boy a five soldi piece and expected to have two in change, but the little fellow shrugged his shoulders and held the change tightly in his hand, with a begging expression on his face, signifying that he wished to have it given to him. Whereupon a second American lady who was accompanying the first straightened herself, looked sternly at the boy and said, "Mercante, non mendicante!" (You are a merchant, not a beggar). That was an appeal to the boy's self respect, and it so inspired him that he actually laughed and pressed the change upon his customer.—Christian Herald.

#### All Fortune Tellers.

"You are accused of swindling people on a fortune telling game," said the district attorney. "Can you really read the past?"

"No."

"Well, I can."

And he proceeded to read the culprit's rather stormy record.

"Can you read the future?" inquired the judge.

"No."

"Well, I can to some extent. At any rate, I can tell you where you'll be for the next two years."—Kansas City Journal.

#### Disraeli's Confidence.

Disraeli wrote a letter to his sister in 1833 in which he said: "Heard Macaulay's best speech, 'Shel and Charles Grant' Macaulay admirable, but, between ourselves, I could floor them all. This entree nous (sic), I was never more confident of anything than that I could carry everything before me in that house. The time will come."

#### Then He Went.

"Ah," remarked Miss Weary, whom Mr. Staylate had been boring with old conundrums, "that last one reminds me of the best thing going."

"What's that?" he asked eagerly.

"A man who has stayed too long."—Catholic Standard and Times.

#### Lots of Bones.

Schoolmaster—Now, Tommy Squibbs, tell me how many bones there are in your body. Tommy Squibbs—"Undreds, sir. I 'ad 'errin' fer breakfast"—London Comic Cuts.

#### Forgot to Ask.

She—The jeweler says the diamond in my ring is not genuine. He—Um—er—he told me the ring was real gold. I forgot to ask him about the stone.—New York Weekly.

No man can be brave who thinks pain the greatest evil, nor temperate who considers pleasure the highest good.—Cicero.

#### DAMES AND DAUGHTERS.

Miss Constance Bentley of England is in the United States trying to win out her grief for the death of a pet cat.

The Rev. Miss A. J. Albrecht, the first woman minister to speak at the conference of ministers, is president of the National Association of Women in the Ministry. She was ordained last year and is now preaching for the missions in New York.

Miss May Robertson, claimed to be the only woman stage driver in the country, makes the trip regularly between Rifle and Meeker, Colo., a distance of thirty miles. She looks after the baggage, attends to the seating of passengers and gives attention to considerable transportation business along the route. She is a slender young woman, not yet twenty-one, and is credited with being one of the best drivers in the west.

Mrs. Horace E. Soule, the second woman wireless operator to sail out of an American port, arrived in San Francisco recently aboard the steamer Winifred, eighty-four days out of New York. Mrs. Soule is the wife of the steamer's captain and became an operator that she might remain with her husband, whom she has accompanied on his voyages for nearly twenty years. They have made three complete cruises around the world together.

#### The Royal Box.

Czar Ferdinand of Bulgaria is supposed to be the best dressed sovereign in Europe and to possess a larger wardrobe than any of his brother monarchs.

Sultan Mohammed V. of Turkey in private life is very simple in his tastes. His meals are often frugal, his favorite dish being, it is reported, the so-called "tas-ketah," small bits of mutton, well seasoned and roasted over a slow fire.

The king of Norway spends less on his attire than any other monarch and much less than many well-to-do private individuals. He keeps only about a dozen suits going at the same time and for some of his shooting and sporting suits does not pay more than \$20. Altogether he does not spend more than \$1,250 per annum on his ordinary dress.

#### Current Comment.

The Japs have taken to eating beef in order to grow tall, while we are quit eating it because we are short.—Washington Post.

The refusal of compensation by the railroad wage arbitrators for their labor of months is a splendid example of generous and disinterested public service.—New York Tribune.

It is reported that American millionaires are being skinned by London art dealers. But any body that can skin an American millionaire is entitled to the post.—Cleveland Leader.

New York has a fire college for teaching men to become firemen. Unhappily, that sort of knowledge seems necessary. But the best rule for fighting fires is this: "Prevent them!"—Cleveland Plain Dealer.

#### Sporting Notes.

The neat sum of \$25,000, Joe Mando's winnings in the last nine months, shows that boxing must be a lucrative business.

W. T. Englehorn of Spokane, Wash., a member of the class of 1914, has been elected captain of the Dartmouth football team for next year. Englehorn has played fullback for two years.

Miss Dorothy Campbell, who has won the Canadian golf championship for the third consecutive time, will, it is announced, marry a Pittsburgh man and will not defend the title next year at Montreal.

#### Goals From Field.

This is one of the years when people don't get hysterical over football accidents.—New York Tribune.

A slight increase in the number of deaths from football this year will not make the game less popular.—New York American.

A football game between East and West would go farther toward settling the college championship, but even at that it would not compare with the game between Harvard and Yale. It would lack historic interest.—Boston Journal.

#### New Year Resolutions.

Now is the time to take your New Year resolutions out of storage.—Judge's Library.

Add another clause to your New Year resolutions this time. Resolve to keep the resolutions you make.—Exchange.

How time flies! Here we are wondering again whether it would do any good to make another stab at New Year resolutions.—Atlanta Journal.

#### Recent Inventions.

A newly invented wheelbarrow dumps its load forward as its handles are pushed down, saving its user the labor of lifting it.

For traveling salesmen there has been invented a valise with folding sides and legs with which it may be converted into a table.

An anchor to be used on lifeboats has been invented which is hollow and filled with oil, which will still the waves after it has been thrown overboard.

#### Didn't Want Any.

Swiggy came downstairs to a 10 o'clock breakfast with a vacant countenance and a backward tendency in his hair that made his eyes ache. He sat down at the table and, picking up his fork, glanced in uneasy wonder at something on the plate before him. It had evidently been tried and was intended for food.

Swiggy harpooned it with his fork and lifted it bodily, gazing at it with a wondering wonder.

"What under the sun," he exclaimed at last, "is this thing?"

"Well," replied his patient wife, with the shadow of a sigh, "it looks like your new sort felt hat, and that is what I thought it was, but you pulled it out of your pocket when you came home this morning and said it was a nice steak, and you wanted it fried for breakfast. You needn't give me any of it, I'm not hungry."

And Swiggy, who was just wild to know what else he said when he came home, and what time it was, for the life of him didn't dare to ask—Pearson's.

#### Shocked and Grieved Her Husband.

Jimson was a little, sharp-eyed shoemaker with stooped shoulders and a white whisker. He lived in a Missouri river town, and whenever he drank too much he used to wind up by going home and thrashing his wife. She never failed to go over to a neighbor's after a session with the old man and complain bitterly of his treatment. After awhile the neighbors grew weary of the oft repeated tale and remarked: "Well, you seem to like it. You always take it willingly. Why don't you pick up something and hit him with it the next time he whips you?" The wife considered the matter, and the next time her lord began to beat her she grasped a chair and smashed it over his head. The old man fell back in stark amazement, dropped his hands and stared at her.

"Why, Mary—why, Mary?" he whimpered. "What on earth is the matter with you? You never done this way before."—Kansas City Star.

#### Humanity to Mules.

"In the fifteen years that I have been connected with societies for the prevention of cruelty to animals in this and other cities I never have received a complaint alleging cruelty to a mule," said the humane looking man. "That immunity of mules from harsh treatment is an interesting question. Why are they immune? There are plenty of mules, even in Philadelphia. Does nobody beat them? Does nobody underfeed them? If not, why not? Does a mule show such a decided ability to take care of himself that his owner is afraid to abuse him, or do men beat mules and starve them and escape punishment because the persons who witness the beating and starving think it is only a mule and not worth bothering about? What is the explanation of that phase of the mule question, anyhow?"—Philadelphia Ledger.

#### An Old Scotch Sundial.

Record is contained in the Bible of a sundial set up in 771 B. C. by Ahaz to commemorate the miraculous healing of his son, Hezekiah. A very ancient one was some time ago discovered lying in the grounds of the ruined castle of Fimring, Kilbr. Perthshire, Scotland, the ancient seat of the Breadalbanes. Unlike most dials, it has twelve planes for recording the hours and two circular planes for use in summer and winter respectively. For many centuries the occupants of the castle deciphered its many angles as it stood reared on a tall pedestal, reflected in the waters of a fountain. The interval of nearly 2,000 years between this dial and that set up by Ahaz shows for how long the dial held its own as an object of utility.

#### The Critic Criticized.

Whistler once gave a tart answer to a critic of one of the "nocturnes." This critic said the nocturne in question wasn't good. Whistler screwed his monocle and grinned at the man.

"Don't say it isn't good," he said. "Say you don't like it. Then you'll be safer. And now come over here. Here is something you do like."

And Whistler led the critic to a sideboard whereon there stood a whisky bottle.

#### Not in His Class.

The young man with a perpendicular measurement of six feet and breadth in proportion had asked the demure little maiden of four feet six to marry him.

"Harold," she said, flashing up a resentful glance up at him, "that isn't fair! It isn't sportsmanlike! Take one of your size!"—Chicago Tribune.

#### Caution.

"Brierly is always very cautious about the statements he makes."

"Yes; he had occasion the other day to refer to Shakespeare, whom he called 'the greatest English poet, according to many good judges.'"—Chicago Record-Herald.

#### Like All the Rest.

Transient Guest—I never saw such a crowd of pessimists as in this boarding house. Old Boarder—Yes. Did you notice that even the milk is sour?—Exchange.

#### Good Idea.

Mrs. Yeast—I just love to shut my eyes and think. Mr. Yeast—Why don't you try that with your mouth sometimes, dear?—Yonkers Statesman.

#### A Proviso.

"Would you marry him if you were me?"

"Well, if I were you, I might."—Philadelphia Bulletin.

INTERESTING  
AND DRIVES  
POINTS WORTH VISITING

OCEAN BEACH—excellent bathing, north for 10 miles and south 10 miles to Mosquito Inlet and Government Lighthouse at Ponce Park. The beach is the most magnificent in the world.

BEED, KNOX & BEED ORANGE GROVE—18 miles, via Ormond, is one of the largest groves in Volusia county and is well worth visiting; can be reached by motor on fairly good road; can also be reached by boat.

NUMBER NINE ORANGE GROVE—a large grove, passed on the way to the Beed, Knox & Beed grove, is 11 miles from Daytona.

NEW SMYRNA—16 miles from Daytona, over an excellent hard surface road; this drive is said to be the prettiest in the state. At New Smyrna are the ruins of an ancient fort and other historical spots, left by the colony of Andrew Turnbull.

OLD SPANISH MISSION—1 mile west of New Smyrna, reached by motor over good road. This mission is without authentic history but by many it is conceded that this is the church built by Columbus on his second voyage to America. The altar is still extant, but at a later date the building was used as a sugar mill.

SPANISH SUGAR MILL—2 miles west of Port Orange and about 8 miles from Daytona; the machinery is still in a good state of preservation, although the mill is presumed to have been built and operated by the early Spanish settlers.

GOVERNMENT LIGHTHOUSE—at Ponce Park, 12 miles from Daytona is reached by boat or by motor on the ocean beach.

MAMMOTH TREE—4 miles from Daytona; an abnormally large tree; reached by motor over hard-surfaced road.

DELAND—25 miles from Daytona; the county seat of Volusia county and seat of John B. Stetson university; a very picturesque city; reached by motor over hard-surfaced road.

TOMOKA RIVER—The scenic stream of Florida; reached by excursion boats which leave Daytona daily and run to the navigable head of the stream, 36 miles from the city. Generally a number of alligators may be seen in their native haunts. This is a trip to tourist should miss.

DELEON SPRINGS, 23 miles from Daytona; mammoth spring that throws out thousands of gallons of water a minute; a delightful bathing pool, and picturesque scenery. Spring is situated in an old plantation. Reached by motor over good road; a nice trip for a picnic party.

OAK HILL—hamlet, 10 miles south of New Smyrna; several orange groves in the locality; reached by motor over hard-surfaced road.

ORMOND—six miles from Daytona; here is located the Ormond hotel and a pretty town; nearby are the ruins of Spanish sugar mills.

TURTLE MOUND—26 miles south of Daytona; reached by boat; a mammoth mound of orster shells supposed to have been left by a prehistoric race of people. Pottery and other antiquities have been discovered in excavating the shell.

PORT ORANGE—an attractive town 6 miles south of Daytona, can be reached by motor over hard-surfaced road; or the trip one way may be made by the road and crossing the Halifax river on the Port Orange bridge, the return can be made on the ocean beach.

CLARENDON GOLF LINKS—2 miles from Daytona and immediately north of the Hotel Clarendon at Seabreeze; the links are now in good condition. The Hotel Clarendon bears the distinction of being the only fireproof winter tourist hotel in the world.

GENERALLY, you may motor in any direction from Daytona and find places and objects of interest which your driver can explain to you; there are many by-roads through the sylvan vegetation that a visitor will greatly enjoy.

## LADON MEMBERS OF INDUSTRIAL COMMISSION

Three members of the new Indian Territory Industrial Commission, the only one of its kind in the United States, are shown in the photograph. The commission is composed of three members, one from each of the three Indian tribes in the territory. The members are shown in a formal setting, wearing suits and ties. The man in the center is slightly behind the other two, who are standing side-by-side. They are all looking towards the camera with serious expressions.

STATE  
HAPPENINGS

News from Fair Florida Briefly Told

Francis Warren, 95 years old and a long resident of Narcoossee, died a few days ago at his home there. He was acknowledged to be the oldest man in that section of the state.

Plans for a street car line to traverse the length of Anna Maria Island at Fernandina are progressing nicely. Work has begun and by May 1st the cars will be in operation.

The southern championship motor boat races, the first to be held under the new American Power Boat association, will be run in St. Augustine on March 31, April 2 and 4, and will be a feature of the Ponce de Leon celebration.

The Chipley board of trade at a recent meeting unanimously voted to organize a boys' corn club contest and to offer \$80 in prizes to boys under 18 years of age who can grow the most corn on an acre of ground.

Upwards of 6,000 people saw Chas. K. Hamilton, intrepid aviator, narrowly escape death Sunday afternoon at Brentwood subdivision, Jacksonville, when his giant aeroplane swooping earthward with the speed of an express train, crashed into a pine sapling stake. The machine was badly damaged, but Hamilton, with his usual remarkable luck, came out of the wreckage with only a wrenched back and a general shake up and a few minor bruises.

TWO NEGROES BOUND OVER  
TO THE CRIMINAL COURT

JOHN BELL CHARGED WITH VAGRANCY AND WILLIE LEE WITH THE ILLEGAL SALE OF LIQUOR BEFORE ZUBER.

John Bell, negro, who was found sleeping in a box car in the railroad yards and with the magnificent sum of 10 cents in his pocket, was up before Justice Zuber to answer the charge of vagrancy Monday and was bound over to the next term of the criminal court.

Willie Lee, colored, charged with the illegal sale of liquor, was also bound over to the next term of the criminal court, but gave bond for his appearance.

at Ft. Lauderdale, was soon a patient in the emergency ward at St. Luke's hospital, but there to breathe his last a few moments after his arrival. The loss of his money and fears of facing his wife, Mrs. Belle Gober, with such a story to tell, he claims was the cause of his desperate act.

A bad case of "road hogitis" was effectually cured by a Jacksonville autoist a few miles north of St. Augustine, while enroute to the Ancient City. A negro chauffeur was driving a party here and the other autoist came up behind and blew his horn for the one in front to allow him to pass. The negro merely looked around and laughed in an insolent manner, however. This continued for two or three miles and finally, as it was evident that it was a very bad case of "road hogitis" the autoist ran up close behind the car and let several bullets fly near the chauffeur's head. The abrupt manner in which the car left the road and allowed the one behind to pass proved it a very effectual cure. Other auto parties passing this one reported that they had no trouble in getting him to allow them enough of the road to pass in.

Keen regret is expressed over the serious loss which has been sustained by the St. Augustine Historical society in the theft of two valuable engravings which were recently stolen from the society's building. President Webb and the members of the society will exert every effort to have the articles recovered and in this they will naturally be assisted by the authorities. The engravings of Menendez and Colligny represented two of the rarest and most valuable in the society's unrivalled collection. In the first place they can hardly be replaced and besides they have an important bearing upon the history of ancient Florida. The disappearance of these two engravings is still a mystery. The only possible clue that can be advanced is that they were taken by some relic hunter while the curator was engaged on the first floor of the society's exhibit building.

**The First Bread.**  
The "staff of life" was by no means  
the first item on men's bill of fare.  
For we know not how many ages hu-  
man beings lived entirely without  
bread or anything approaching it in  
character. The first men were hun-  
ters and lived mostly on the flesh of  
the creatures they killed in the chase.  
The pastoral stage, which followed  
the hunter period, supplied milk  
along with the flesh of the domestic  
animals, and bread was practically  
unknown until men had settled down  
to agriculture. The Chinese emperor  
Ching Nung is said to have been the  
first to teach men the art of husban-  
dry and the method of making bread  
from wheat about 4,000 years before  
Christ.

**The Most Original Authors.**  
The most original modern authors  
are not so because they advance what  
is new, but simply because they know  
how to put what they have to say as  
if it had never been said before.—  
Goethe.

**Stop This!**

It's a good home and business proposition now  
and will come in for subdivision soon—I am  
speaking of a 25-acre water front proposition  
near town with seven room house, chicken  
yards, buildings--and BARGAIN is the word.

**NEW BAND KIOSK WILL BE  
DEDICATED NEXT SATURDAY**

SPECIAL PROGRAM INCLUDES  
WALTZ WRITTEN BY DIRECTOR  
SARACINA AND NAMED "BUR-  
GOYNE."

The new band kiosk, which has  
been in process of construction for  
the past week on the city parkage  
just north of the city hall, will be  
completed by the last of the week  
and will be ready for use by Saturday,  
when it will be formally dedicated  
with a concert at 3:00 o'clock by the  
Saracina Royal Italian band.

Appropos of the occasion Rocco  
Saracina, conductor, has arranged a  
special dedicatory program, as  
follows:

- 1—March, Tannhauser, Wagner
- 2—Overture, William Tell, Rossini
- 3—Selection, Bohemian Girl, Balfe
- 4—Waltz, Burgoyne Saracina
- 5—Fantasia Air Varie Harlow  
(Baritone solo, Sig. F. Montanare)
- 6—Serenade (cornet solo by Sig. R.  
Saracina, conductor) ... Shubert
- 7—Selection, Rigoletto, Verdi
- 8—Grand Fantasia, America Forever,  
Tobani

The band, which was secured for  
Daytona largely through the efforts  
of our public spirited fellow towns-  
man, C. G. Burgoyne, is the best  
musical organization ever heard here.  
Its repertoire includes the gems of  
the classics interspersed with catchy  
light operatic hits, dreamy waltzes  
and snappy rhapsodies, properly blend-  
ed by the splendid tact of the direct-  
or. From the dizzy speed of the  
climax of William Tell to the gen-  
tlest lull of the Blue Danube, Mr.  
Saracina has the entire band at his  
finger tips; and its melodious concert  
is perfect. It is doubtful if any of  
the big bands in this country have  
and superior virtuoso, and the com-  
mendations of our winter tourists,  
whose musical tastes are sophisti-  
cated, is creditable to the band, hon-  
or to its efficient leader and a last-  
ing tribute to Daytona, which, by  
the way, is the only Florida resort  
enjoying such splendid band concerts.

**DOUBLE HEADED SNAKE  
MAY BE EXHIBITED HERE.**

C. T. Wiseman of Glenville, Ga.,  
is in the city for the purpose of ex-  
hibiting a double headed rattler, cap-  
tured in the vicinity of Glenville  
about eleven weeks ago. Mr. Wise-  
man has been in possession of the  
freak snake for about nine weeks  
and has exhibited it in a number of  
places during that time. He is now  
on his way to points on the lower  
East Coast, but he has arranged to  
show the reptile in this city at  
Lanier & Baker's drug store for sev-  
eral days.

The snake is a beautifully marked,  
perfect specimen, several inches in  
length and has grown an inch in  
length since it has been in Mr.  
Wiseman's possession. It is probably  
the only living, two headed snake in  
captivity and is valued at \$1000, its  
owner having received an offer of  
that amount for it. The reptile is fed  
on flies, crickets and other insects  
and devours its food with either  
mouth, though it usually makes use  
of both heads when drinking.

This remarkable freak of nature  
was captured in a Georgia cotton  
field by an old colored woman from  
whom Mr. Wiseman secured it, re-  
alizing its great value for exhibition  
purposes.

**Their Proper Place.**  
The folks who are perpetually pro-  
testing that their consciences are  
clear and that they have nothing for  
which to reproach themselves are gen-  
erally in a bad way, for the probab-  
ility is that their much-vaunted con-  
sciences have stopped working and  
are of no further use. Such people  
never allow that they are in the  
wrong; their favorite sentence is, "I  
told you so!" and their proper place  
is on a desert island with thick-  
skinned turtles for boon companions.

And Prints Them, Too.  
"Jones writes more foolish things  
than any other man I know."  
"What is he, a poet?"  
"No, congressional stenographer."  
—Latin.

**Splendid Feature at Crystal**

Henry T. Titus,  
the popular man-  
ager of the  
Crystal Photo-  
Play House, has  
secured for its  
patrons the great  
feature "The  
Shaughraun" for  
Wednesday af-  
ternoon and  
night. The fea-  
ture is one of  
Dion Boucicault's masterpieces and  
the role of "Conn" was a particular  
favorite with the noted actor-  
dramatist. Mr. Titus promises to the  
patrons of this popular playhouse the  
most famous romantic drama ever  
shown in motion pictures. Every  
scene is produced in picturesque,  
old Erin.—Advertisement.

Sheriff E. L. Smith drove over  
from DeLand Monday afternoon to  
attend to some official business and  
carry back with him some prisoners  
awaiting transportation to DeLand.  
He remained in the city until this  
morning.

**COLDEST WINTER WEATHER  
EXPERIENCED AT CHICAGO.**

CHICAGO, Jan. 21—Chicago is to-  
day experiencing the coldest weather  
of the winter. With the cold weath-  
er following the sleet storm every-  
thing is covered with ice and  
hundreds of persons have been in-  
jured by falls.

**WEATHER FORECAST.**

Local rains tonight or Wednesday,  
except fair in the northwest portion.  
Colder tonight in the north and cen-  
tral portions. Colder Wednesday in  
the east and south portions. Light  
to moderate variable winds, becoming
